

The Commercial H₂O Treater incorporates high tech engineering and construction.

Designed to handle even the toughest quality water while providing the best equipment protection available. These filtration units incorporate high capacity carbon block filtration, and scale reduction while still providing high flow rates. The H₂O Treater will not only provide high quality ice and water, but it will do it at an economical cost.

For use on: ice machines, coffee machines, cappuccino machines, fountains, steamers, soda dispensers and drinking water.

FAL-HTE-S1

Flow Rate: 2.1 gpm
 Rated Capacity: 29,000 gallons
 Dimensions: W 6.0" D 5.2" H 20.0"
 Shipping Weight: 3.0 lbs
Replacement Filter:
 FAL-HTE-3200S

FAL-HTE-S2

Flow Rate: 4.2 gpm
 Rated Capacity: 58,000 gallons
 Dimensions: W 10.0" D 5.2" H 20.0"
 Shipping Weight: 5.0 lbs
Replacement Filter:
 FAL-HTE-3200S

**FAL-HTE-S3
PICTURED ABOVE**

Flow Rate: 6.3 gpm
 Rated Capacity: 87,000 gallons
 Dimensions: W 14.0" D 5.2" H 20.0"
 Shipping Weight: 7.0 lbs
Replacement Filter:
 FAL-HTE-3200S

FAL-HTE-S4

Flow Rate: 8.4 gpm
 Rated Capacity: 116,000 gallons
 Dimensions: W 18.0" D 5.2" H 20.0"
 Shipping Weight: 9.0 lbs
Replacement Filter:
 FAL-HTE-3200S

- ALL UNITS INCLUDE**
- Flush Valve/Pressure Relief
 - 0.5 Submicron Nominal Filtration
 - Taste & Odor, Chlorine, Chloramine Reduction
 - Scale Control for Hard Water Applications
 - Sediment Filtration for Dirt, Rust, Particulate Matter
 - Inlet/Outlet Connection - 1/2" FPT
 - Max Working Pressure - 75 PSI
 - Maximum Temperature - 100° F
 - Lead Free - NSF 372 Compliant
 - NSF Tested & Certified to ANSI/NSF Standards 42 & 43

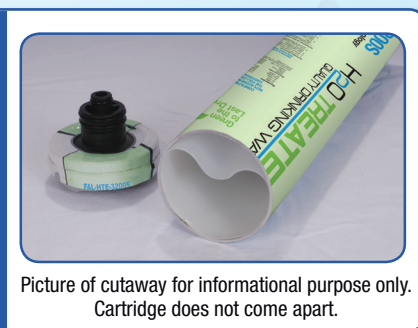

World Class Construction Features

Incorporated Within Each Cartridge

- Metal (Deep Drawn Aluminum) Canister
- Expandable Netting Core Cover
- Sediment Filtration
- Latest Carbon Block Technology
- 8 Ounces of Scale Control Media
- Polypropylene Pressed-In Plastic Housing (NSF Certified)

Reliability You Can Taste!

The H₂O Treater cartridges are made with a strong, durable aluminum outer shell with an inner liner which prevents the water from coming into contact with its aluminum housing.

H2O Treater Crossover

You Can Expect Great Tasting Hot & Cold Beverages, Drinking Water and Ice

Quality Water Treatment Equipment

- Fine sediment filtration for dirt, rust and solids down to 0.5 micron.
- The latest in carbon block technology allows for enhanced chlorine reduction.
- Longer usable life of up to 29,000 gallons which reduces ongoing costs and maintenance requirements.
- High 2.1 gpm flow rate allows for use with standard faucets or with separate drinking water faucets.
- Hard water scale control protects and extends the life of all water using equipment that heats, chills, freezes or dispenses.

Specifications:
 Rating: 0.5 Micron
 Flow Rate: 2.1 gpm
 Capacity: 29,000 Gal.
 Maximum Pressure: 80 PSI
